Reading Tips

Read for meaning, then for detail.

01 Skim the passage first for its main idea and how the paragraphs are organised.

02 Scan for key words from the question, then read the sentences around them carefully.

03 Answers usually use synonyms and paraphrases, not the exact words of the question.

04 Don't stay too long on one question — about 20 minutes per passage.

05 Know the difference between False (the text says the opposite) and Not Given (the text doesn't say).
