Speaking Tips

Have a conversation, not a recitation.

01 Extend your answers: give a reason, an example or a short story.

02 Examiners notice memorised answers. Speak naturally about your real experiences.

03 In Part 2, use the one minute to note key words, not full sentences.

04 If you need time to think, use natural fillers such as "That's an interesting question…".

05 Practise speaking every day — confidence comes from use, not from lists.
