COMMUNICATION MEANS

SPEAK ENGLISH, GO GLOBAL

IELTS Preparation

Our methodology

Face-to-face coaching, a private learning space, and theme-based lessons that integrate all four skills. English is a means — not the destination.

Taught by Achraf Agermoune · Cambridge CELTA · 10+ years teaching

Face-to-face first. The portal keeps you going.

Live sessions are the heart of the programme. The learning space supports what happens in class.

Live sessions

- Real conversation and speaking practice
- Personal feedback on your writing
- A plan built around your target band
- Human coaching: questions answered directly on WhatsApp

Private learning space

- Vocabulary and reading before each class
- Interactive practice with instant feedback
- Progress tracking for every lesson
- A course completion certificate at 100%

Our philosophy

Fluency is not memorised; it is acquired. The more you use and experience English, the easier it becomes — just like a first language. We focus on natural conversation and inductive grammar: you notice patterns in real language before naming the rule. There are no shortcuts. We aim for you to enjoy the process; progress follows as a natural result.

Why choose us

No wasted class time

You read and review before class, so our time together goes to speaking, feedback and real practice.

More than hours

Live coaching plus a learning space that keeps you practising all week.

A real coach

Cambridge CELTA-qualified, 10+ years teaching, questions answered on WhatsApp.

Integrated skills, theme by theme

Each theme builds ideas and vocabulary you can reuse across the whole test.

01 Reading
Authentic texts on the theme; skimming, scanning and question strategies.

02 Listening
Exam-style recordings that recycle the theme's vocabulary.

03 Speaking
Parts 1–3 practice using the ideas you have just met.

04 Writing Task 2
Planning and writing an essay on the theme, with feedback.

05 Active Output
You put it all together: speak, write and reflect.

Theme roadmap

- 01 Education & Academic Life
- 02 Technology & Society
- 03 Environment & Climate
- 04 Work & Career
- 05 Health & Lifestyle
- 06 Cities, Transport & Urban Life
- 07 Culture, Media & Globalization
- 08 Family, Society & Ethics

Inside every lesson

Every lesson follows the same four-step rhythm.

1. Hook

A real-life question or reality check that gets you thinking and talking.

2. Inductive breakdown

You discover vocabulary and grammar patterns from real examples, before we name the rule.

3. Guided practice

Interactive activities — matching, quizzes, short tasks — with instant feedback.

4. Active output

You speak or write using what you learned, and receive personal feedback.

Have a test date or a target band?

Let's plan your preparation together.
